| ESTADO LIBRE DE PLOMO / ESTADO ROHS | Contiene plomo / RoHS no compatible                                                                         |
| CANTIDAD DISPONIBLE                 | 4908 pcs                                                                                                    |
| FICHA DE DATOS                      |                                                                                                             |
| W / SUPERVISOR                      | No                                                                                                          |
| W / SECUENCIADOR                    | No                                                                                                          |
| W / CONDUCTOR DEL LED               | No                                                                                                          |
| TENSIÓN / CORRIENTE - SALIDA 3      | -                                                                                                           |
| TENSIÓN / CORRIENTE - SALIDA 2      | 3.3V, 45mA                                                                                                  |
| TENSIÓN / CORRIENTE - SALIDA 1      | 4.4V, 300mA                                                                                                 |
| SUMINISTRO DE VOLTAJE               | 2.7 V ~ 4.8 V                                                                                               |
| TOPOLOGÍA                           | Step-Up (Boost) (1), Linear (LDO) (1)                                                                       |
| PAQUETE DEL DISPOSITIVO             | 8-DFN (2x2)                                                                                                 |
| SERIE                               | -                                                                                                           |
| PAQUETE / CUBIERTA                  | 8-WDFDN Exposed Pad                                                                                         |
| TEMPERATURA DE FUNCIONAMIENTO       | -40°C ~ 125°C                                                                                               |
| NÚMERO DE SALIDAS                   | 2                                                                                                           |
| TIPO DE MONTAJE                     | Surface Mount                                                                                               |
| ESTADO SIN PLOMO / ESTADO ROHS      | Contains lead / RoHS non-compliant                                                                          |
| FRECUENCIA - CONMUTACIÓN            | 2.2MHz                                                                                                      |
| DESCRIPCIÓN DETALLADA               | Linear And Switching Voltage Regulator IC 2 Output Step-Up (Boost) (1), Linear (LDO) (1) 2.2MHz 8-DFN (2x2) |
